To Whom It May Concern:

Valdez Tutoring company has been providing tutoring services to Madera Unified School District's foster students and students in transition since January 2022. Students received in person tutoring three hours a week working around the families individual requests such as location and the hours services were provided.

Tutors were recruited through the local colleges and trained by Valdez tutoring company to review the expectations and to ensure tutors understand the clientele they were going to be working with and the additional obstacles they may encounter. MUSD partnered with Valdez to provide a united representation of the collaboration in supporting our students.

Student progress was reported via a daily tutoring log that was completed after each session. The log was maintained on Google Docs and was shared with classroom teachers, administrators, and district staff. Valdez established and maintained a clear line of communication with all stakeholders. Students reported back that they liked working with the tutors and that they helped them to do better in school. Parents and classroom teachers noted student improvement and administrators expressed satisfaction with the program.

The Valdez team was focused on our school goals and once expectations were set needed little additional direction. Valdez Educational Services will continue working with our students during the 2022-2023 school year and we look forward to the student's learning to increase as a result of this service provided.

If you need any additional information, please do not hesitate to contact me at 559-416-5855.

Sincerely,

Alyson Crafton
Director of Student Services

Our Vision: Madera Unified will set the standard for hard work, creativity and resiliency with a fearless drive to continuously improve.
